

MAKE RADIOS PART OF THE SOLUTION TO COVID-19

WorkSafe™

Maintaining safety in the workplace

ENSURE EMPLOYEES ARE SAFE

When you turn on the ignition, the car displays a safety message on the dashboard and plays tones until you buckle your seatbelt.

Similarly, when your employees start working, they turn on the radio and are sent a list to questions to which they reply with a simple YES or NO button press. For instance:

Are you wearing your PPE?

Is everyone around you wearing their PPEs?

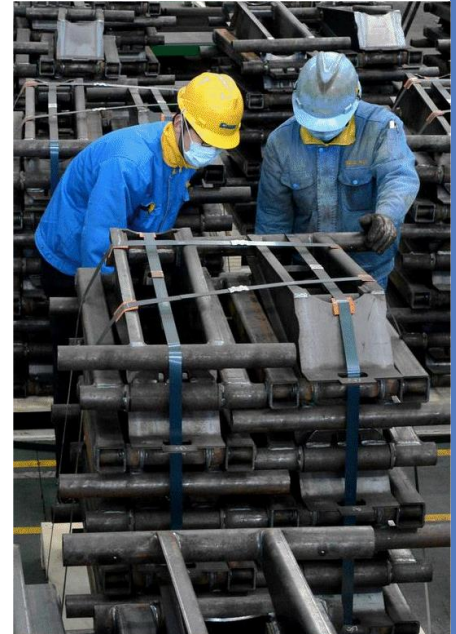

Did you have any symptoms in the past 24 hours?

A NO reply immediately notifies a supervisor via email. If the message is unanswered it is repeated multiple times.

ENSURE EMPLOYEES STAY SAFE

In addition, a “Stay safe and wear your PPE” reminder message is sent every few hours.

Better than signs and posters that are easily overlooked over time, WorkSafe brings COVID-safety right into the hands of workers and stays with them through their shift.

MITIGATE LIABILITY

All exchanges are logged to document the interaction for recordkeeping purposes.

In case radios are shared between shifts, employees can also be required to sign-in with their numerical IDs.

FUTURE PROOF FLEXIBILITY

The solution is fully configurable, including all messages, replies that cause the notification and timings.

ADDITIONAL BENEFITS

WorkSafe™ is one of the many features of TABLETmedia's Multifunction Radio Gateway. Radio systems can benefit from its many additional features such as advanced telephone interconnect, mass notification, alert control system, indoor location, GPS export, job ticketing, email gateway and call recording.

SELECTED FEATURES

- All messages and timers are programmable
- Responses can be individually configured for YES/NO replies
- User sign-in mode (optional) requires numeric ID (SL/XPR7550 only)
- Notifications emails require a standard SMTP server

REQUIREMENTS

- MS Windows 7 or greater
- MOTOTRBO control station or data NAI repeater interface
- Display radios (CP100d, SL/XPR 3500/7500)

PROFESSIONAL SERVICES

- Customizations available for special requirements

MRG - WorkSafe

Mode of operation: Use user sign-in

Sign-in:
Resend interval (secs, 0=disabled): 20
Message: Please sign in

Initial checklist:
 Require reply Resend interval (secs, 0=disabled): 30

UNIQUE EXPERIENCE

Understanding the critical requirements of your business, we have grown by listening and appreciating your trust. We can only make great products if they need no support or, as needed, we are there to promptly help you. Since 2001 we have provided device manufacturers, dealers, and end-customers best-in-class prompt and hands-on support. All of our products are developed by us, right here in the USA. They are tightly integrated and modular to scale seamlessly and meet your requirements now and in the future.
