Genetec™

TRBOserver: Genetec Integration
Enhancing notifications capabilities and locating radio assets

TRBOserver is an on-premise multi-site server that enables Genetec Security Center systems with asset tracking and limitless bidirectional alarm and notification capabilities. It notifies different types of users and devices, including analog and digital 2-way radios, telephones, PA systems, and IoT devices.

Features
Examples of what the TRBOserver-Genetec integration can accomplish:
- Simultaneously dispatch voice announcements to any analog or DMR digital 2-way radios, telephones, PAs, and text messages to groups or individual DMR radios
- Acknowledge or trigger alarms from Motorola MOTOTRBO radios
- Trigger alarms via telephone with a simple DTMF code
- Alarms activate relays via radio telemetry
- Receive notifications on Security Desk, including faulty machinery, fire, NOAA severe weather reports, and emergency alerts
- Direct alarms to the most appropriate destination with time- and content-specific rules
- Track the real-time GPS location of radios on Genetec's maps

Benefits
TRBOserver:
- Integrates the capabilities of multiple systems into one single solution to enable simpler, robust, and reliable deployments.
- Delivers additional radio-centric capabilities such as location, emergency / man-down / lone worker alerts, telephone interconnect, indoor/outdoor location, job ticketing, employee accountability, and safety, as well as alarms from fire panels, HVAC, BDAs, and malfunctioning equipment
- Future-proofs the ever-changing requirements of any organization
- Network integration with MOTOTRBO infrastructure. Supports other DMR radios.

Value Propositions
TRBOserver automates the distribution of notifications and delivers them to the appropriate parties in the most timely and efficient way possible.

The end goal is to engage any part of the organization to more efficiently act on events, improving situation awareness, employee safety, and loss prevention.

Requirements

On-premise solution:
TABLETmedia TRBOserver version 4.0.59
Genetec Security Center Server 5.13

Regional availability: Americas (NA and LATAM), Europe, Asia and Africa

UNIQUE EXPERIENCE

Understanding your business's critical requirements, we have grown by listening and appreciating your trust. We can only make great products if they need no support, or, as needed, we are here to help you promptly. Since 2001, we have provided device manufacturers, dealers, and end-customers with best-in-class prompt and hands-on support. We develop all of our products right here in the USA. They are tightly integrated and modular to scale seamlessly and meet your requirements now and in the future.

Developed and Supported in the United States of America
